DETAILED ACTION

Election/Restrictions

The reply filed on 12/22/06 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Newly submitted claim 7 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The prior claims 4 and 6, where directed toward an apparatus and the method of providing the elements of the apparatus did not require the limitations of the method of using/controlling the device. For example, the steps of coupling the first and second lever; and setting both the electric brake and indirect acting brake by movement of the coupled levers was not required in the original presentation.

The apparatus and the method of claim 7 are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the apparatus does not require that the levers be coupled to set both the electric brake and the indirect acting brake as set forth in the method of claim 7.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 7 is withdrawn from consideration as

Art Unit: 3682

being directed to a non-elected invention. See 37 CFR 1.142(b), MPEP § 821.03 and 37 CFR 1.111.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
